that can deliver results, improve the
end user's performance and
satisfaction.

WELLBEING IS THE NEW NORMAL

Break-
through product
applications

- ✓ Long-acting Energy Nutrition
- ✓ Immunity
- ✓ Sports Nutrition
- ✓ Nausea Relief
- ✓ Cardiovascular Health
- ✓ Gastrointestinal Health

LONG-ACTING ENERGY NUTRITION ONLY UPPS, NO DOWNS

- ✓ Provides energy for 4 – 6 hours from consumption.
- ✓ Provides a pleasant yet noticeable level of alertness and focus
- ✓ Equivalent to 1 cup of coffee every hour as a benefit of our sustained-release technology.
- ✓ Promotes mental and cognitive function and enhances immunity.
- ✓ No carbohydrates or other calorie-rich nutrients are required to enjoy the formulation's long-acting, healthy energy properties

IMMUNITY - BE PROTECTED

Our immunity-enhancing add-on application strengthens the human body's natural defense mechanisms, and assists the human body to more effectively battle foreign threats and invasions.

Key application properties

- Enhances the human body's natural defense system
- Promotes healthier body response to foreign invasions
- Elevates mental and cognitive function
- Assists mood improvement

EXTEND SPORTS NUTRITION

Our sports formulations designed for amateur athletes, who desire to improve their physical, cognitive and mental performance during exercise.

Available Variations of the formulations:

- Single-period bioactives “loading”
- Pre-exercise body preparation
- Short exercise duration (under 60m) performance enhancement
- Long duration (60m+) intra-exercise performance enhancement
- Post-exercise effective recovery

NAUSEA-ALLEVIATION FEEL WELL AND RELIEVED

- ✓ Immediate relief to people who are experiencing nausea from a number of conditions:
Dehydration, cold and viral invasions, contaminated food, gastrointestinal imbalances, chemotherapy & radiotherapy, early pregnancy and motion sickness.
- ✓ Long-lasting effect for 4 – 6 hours.

CARDIOVASCULAR HEALTH SUPPORT

With our add-on technology, your nutrition bar or shake can positively influence the vascular system and heart function.

Key benefits

- Enhanced vascular blood flow
- Enhanced vascular system flexibility
- Healthier heart function and blood pressure
- Improved balancing of blood-lipids composition
- Healthier inflammation response

SUPPORT YOUR GASTROINTESTINAL HEALTH

Our Gastrointestinal health & function add-on formulation assists the gastrointestinal system to stay balanced.

Key application properties

- Recovery of healthy gastrointestinal motility
- Recovery of healthy intestinal barrier
- Alleviation of transient gastrointestinal inflammation
- Alleviation of transient gastrointestinal pain and discomfort

NT2 (™) NUTRIENT TRANSPORT TECHNOLOGY

7 years of development by a diversified group of scientists & technologists

- Complete foul-taste isolation
- Optimal dispersion (free-flotation) in liquid formulations
- Exclusively using food-grade materials
- Particle size under 250μ => Below human mouth' sensory threshold
- Core-shell structure
- Array of shell disintegration triggers: Time, pH and enzymatic
- Array of sustained-release profiles

ABOUT VITAL TECHNOLOGIES
