

GOLDEN WINGS  
NOODLES

# TRADITIONAL TECHNIQUES IN MODERN PRODUCTION

## STRICT QUALITY INSPECTION

- Conducted during every step of the manufacturing process

## HIGH-QUALITY RAW MATERIALS

- Insured by inhouse flour milling production using carefully chosen Australian-imported wheat

## VACUUM PRODUCTION TECHNOLOGY

- Improves the elasticity and texture of the noodles

## PATENTED ROLLING & KNEADING TECHNOLOGY

- Incorporates traditional techniques in a 100% automated environment

## SAFE PRODUCT PRESERVATION

- Assures 12-month shelf life without the use of chemicals
- Involves International lactic acid preservation, pasteurization, and soft canned packaging technology

STRICT  
INSPECTION

100%  
STEAMED

STERILE  
ENVIRONMENT

# VARIOUS & EASY COOKING WAYS

- • • The noodles are steamed and conveniently packed in personal serving-size vacuum packs of 180-200 gr.
- • • Prepare your favorite dish healthy & delicious, using top-quality ingredients in just 2-5 minutes.

## WHY GOLDEN WINGS

- Innovative Technology, incorporating Chinese hand-rolling technique into industrial food production
- Do not contain chemical preservatives
- Long shelf-life: can be stored for 10-12 months at room temperature.
- 100% automatic sterile production line with the newest Japanese equipment

### BENEFITS

#### HEALTH BENEFIT

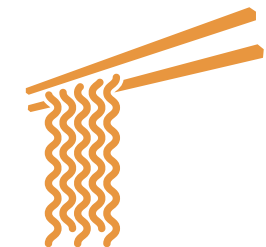

Noodles are 100% steamed and not fried, with low fat content

#### CONVINIENCE

Ready in just 1 - 3 minutes - quick to prepare and convenient

#### TEXTURE

Enjoy pure noodle taste - noodles are soft and chewy, with a strong wheat flavor
