Protected by A proprietary strain & several patents

When visionaries meet market knowledge

Mine Uran, Founder & ceo

As a worldwide known protein expert, Mine has been an of alternative proteins for over 25 years at Unilever, DuPont and lastly in the role of Head of Alternative Protein at Nestle. Mine, with her rare combination of strong science and business knowledge is leading the food revolution.

Majbritt Byskov-Bridges, Founder & coo

Majbritt started her career on the trading floor at Morgan Stanley and moved on to lead the Guardian Wealth office in Geneva. As an economist with an MBA and experience in investor relations Majbritt plans to combine sustainability with success.

About Alver

FIRST to market with palatable algae products

Vision

Providing A Sustainable food solution

We stand for sustainability from all aspects, aim to make a contribution to a sustainable and natural form of nutrition. It means that the growing world population urgently needs protein-rich food that contains all the important nutrients and can also be produced in a resource-saving way and environmental friendly.

Mission

Golden Chlorella® is the most sustainable solution...

Golden Chlorella® is the most comprehensive and nutrient-dense food source currently available in the world. It contains protein, fiber, minerals, and vitamins. We are always on the move to expand its application in the foods by focusing on our R&D expertise to present:

- ✓ Vegan
- ✓ High protein
- ✓ Naturally rich

Alver International Awards in 2021-2022

Winner

The Best New Specialty Health Product in the **Natural & Organic Award Europe 2021.**

#1 in category.

Certification

The Solar Impulse Efficient Solution 2021.

#1000 solutions challenge, to select solutions that meet high standards in profitability and sustainability.

Winner

European Impact Competition 2021.

Out of #7500 startups.

Finalist

Entrepreneurship Sports Generation.

Global accelerator of the World's To-Do List.

Out of #600000 entrepreneurs, #190 countries.

Finalist

Green Business.

The best solutions in Switzerland that combine ecological innovations with economic success.

Finalist

Extreme Tech Challenge.

Competition showcasing the world's most innovative, purpose-driven startup companies.

Out of #3700 startups, #100 countries.

Join us in leading
the second growth
wave of alternative
protein!
