About MediGence

"To make the world's best healthcare accessible and affordable"

MediGence is a Temos-certified **digital healthcare** organization with a vision to significantly improve **global health access** and **affordability** using its continuous **innovation** in healthcare. With its suite of **technology** and **global care network** of **internationally certified healthcare providers**, MediGence is changing the way people around the globe access healthcare. Our services include:

Medical Travel

Helps in the discovery of the best provider for the patient and provides all the assistance for the most transparent and hassle-free experience

Second Opinion Platform

Addressing the Misdiagnose issue with its unique product offering that promises a revalidation of the diagnosis and the line of Treatment and protocol

Telehealth Platform

We have partnered with over 1000+ board-certified surgeons from over 8+ countries that are readily available on our telemedicine platform to offer expert opinions to patients worldwide

Rehab & Wellness Programs

Our clinically designed rehab programs are outcomes-based delivery with outstanding results. We deliver these programs using our remote delivery model

Offers and Packages

Did you ever imagine for patients to book and pay for the treatment online when you are away? Our e-commerce suite makes it happen with the promise of significant savings on their total healthcare spend

EWP Programs

Excellent program for corporate members and families to access the best healthcare by paying a fraction of monthly fee/premium
