About aora

Redefining Digestive Health Solutions

Aora Health is an **EU-based laboratory** that researches, develops, manufactures, and markets next generation nutraceuticals with a unique approach. **Aora Health** develop innovative and scientifically proven solutions designed to complement and/or replace pharmaceutical drugs that are not able to solve the existing market requirements.

1 Aora researches to create innovative solutions

2 Aora develops scientifically tested products

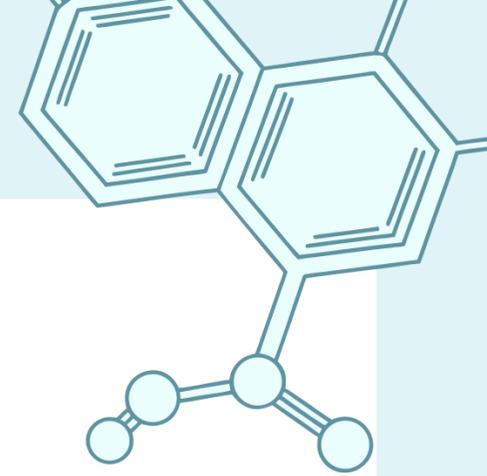

3 Aora manufactures with pharma standards

4 Aora market globally with wide partners

Financiado por la Unión Europea
NextGenerationEU

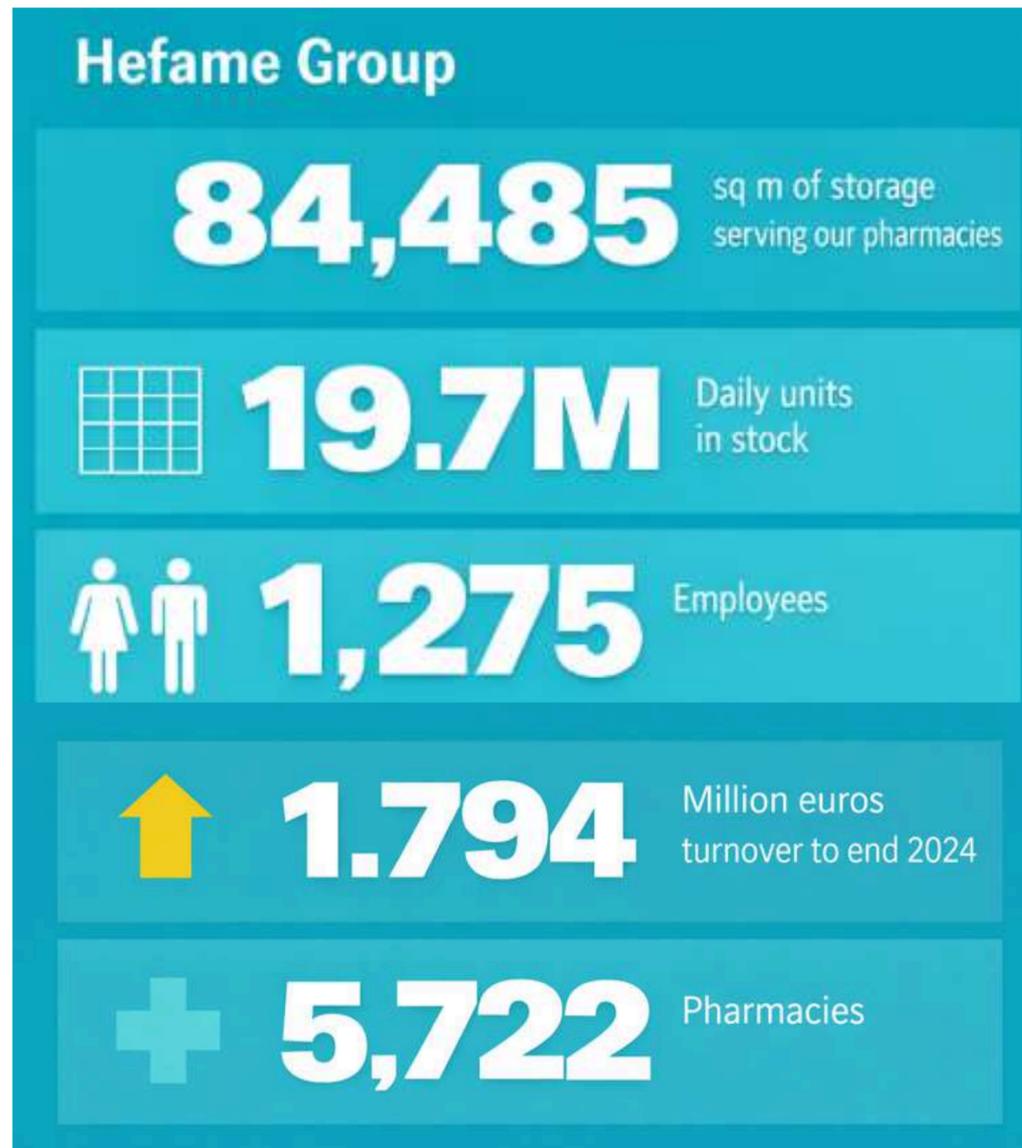

About **HEFAME HPLUS+**

Europe's Producer, Distribution and Pharmacy Network

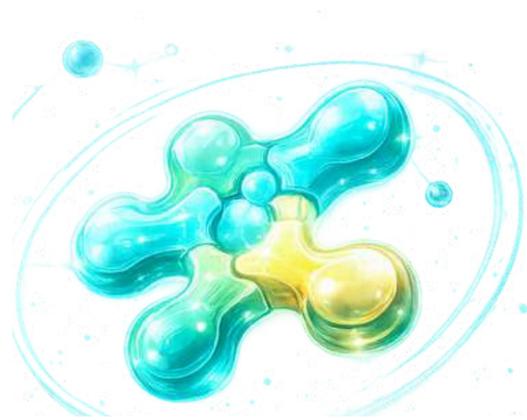

Hefame is one of Spain's leading pharmaceutical distribution groups, supplying pharmacies, hospitals, and healthcare partners across the country.

HPlus+ is their international export and brand-development arm, created to bring selected European health, nutrition, and OTC brands to global markets.

Enzymax

Innovative solutions for digestive health

MULTI-ENZYME APPROACH

A multi-enzyme approach effectively combines various enzymes to enhance the digestion and absorption of nutrients.

MODULAR FORMULAS

Modular formulas allow customization for tailored solutions, meeting diverse consumer needs while maintaining product efficacy.

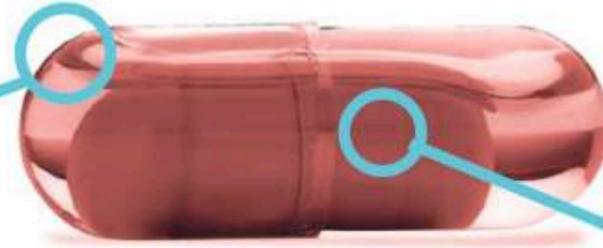

SCALABLE SYSTEM

The scalable product system supports market expansion, ensuring consistent quality and availability across different regions.

CAP IN CAP TECHNOLOGY

The **external capsule** releases ingredients inside the **stomach**

2 x 
Capsule Inside Capsule
Targeted Delivery Method

 Stomach Release

 Intestinal Release
(Gastro-resistant)

Higher "enzymatic" concentration
Compared to pharmaceutical alternatives

8 x 
A complete enzyme presentation

8 types of digestive enzymes

With enzymes of non-animal origin.

- Regulatory Dossier
- Clinical Studies
- Stability Studies
- Equivalence Studies

The **internal capsule** releases ingredients inside the **intestine**

Enzymax Forte

With 8 digestive enzymes
Dual-release technology
(Stomach and Intestine)

INDICATIONS:

- Exocrine pancreatic insufficiency (EPI)
- Dyspepsia & indigestion symptoms
- Recommended for Individuals who require a food supplement based on digestive enzymes

FORMAT:

- 20 Capsules. Dual Release System (stomach and intestine)

INGREDIENTS:

External Capsule:

- Lipase
- Amylase
- Glucoamylase
- Protease 4.5
- Protease 3.0

Internal Capsule:

- Lipase
- Amylase
- Glucoamylase
- Protease 4.5
- Protease 6.0
- Neutral bacteria
Protease
- Alpha-Galactosidase

Enzymax Duo Biotics

**With 5 digestive enzymes that act in the stomach
Dual-release product. It contains 5 digestive enzymes
that are released in the stomach and a synbiotic (pre-
and probiotic) that is released in the intestine**

INDICATIONS:

- Pancreatic problems
- Dyspepsia & indigestion symptoms
- IBS symptoms
- Restores intestinal flora
- Against diarrhoea (travel, antibiotic etc.)

FORMAT:

- 20 Capsules. Dual Release System (stomach and intestine)

INGREDIENTS:

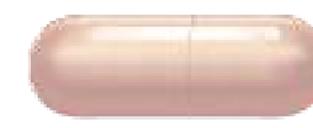

External Capsule:

- Lipase
- Protease 4.5
- Protease 3.0
- Amylase
- Glucoamylase

Internal Capsule:

Synbiotic:

- Lactobacillus plantarum
- Prebiotic fiber (FOS)

ENZYMAX LIPOFOOD FSMP

Food for Special Medical Purposes (FSMP). For the dietary management of patients with exocrine pancreatic insufficiency who cannot cover their nutritional needs for fat-soluble vitamins through a normal diet

INDICATIONS:

- For the dietary management of patients with exocrine pancreatic insufficiency (EPI)

FORMAT:

- 20 Capsules. Dual Release System (stomach and intestine)

INGREDIENTS:

External Capsule:

- 5 enzymes

Internal Capsule:

- 7 enzymes
- Vitamin A
- Vitamin D
- Vitamin E
- Vitamin K1

ENZYMAX ANTIGAS

INDICATIONS:

- Prevents gas produced by grains, vegetables, and beans
- Prevents bloating and helps with overall digestion

FORMAT:

- 20 Capsules. Dual Release System (stomach and intestine)

INGREDIENTS:

External Capsule:

- Lipase
- Amylase
- Glucoamylase
- Proteolytic enzymes:

- Protease 4.5
- Protease 3.0

Internal Capsule:

- Alpha-galactosidase

ENZYMAX REFLUX

Food supplement made from digestive enzymes, plant extracts, and minerals

Calcium contributes to the normal function of digestive enzymes

INDICATIONS:

- Gastroesophageal reflux (GERD)
- Dyspepsia
- Refractory antacid therapy

FORMAT:

- 30 Capsules

INGREDIENTS:

- *Opuntia ficus*
- *Olea europaea*
- Digestive enzymes
- Sodium alginate
- Sodium carbonate
- Calcium carbonate

Other Enzymax Family Portfolios

ENZYMAX STICKS

Indications:

- Dyspepsia and digestion problems
- For the elderly or people with dysphagia
- Direct paediatric applications
- For children older than 3 years

Format: 30 Sticks

ENZYMAX DIGEGLUTEN

Indications:

- Digestive problems caused by accidental gluten intake in celiac people
- Non-celiac gluten intolerance

Format: 30 Capsules

Let's collaborate for success
